

February 22, 2002

To whom it may concern:

Classic Golf was the General Contractor for our 18-hole golf project, Honeybrook Golf Club, which opened for play April 2000.

The project included clearing trees, grading, shaping, cart-paths and the building of tees and U.S.G.A. sand base greens. Classic Golf also seeded and sodded the entire project and installed the irrigation system.

We found Classic Golf to be very capable and willing to work with all parties involved to construct a high-quality golf course. They responded in a timely manner to any areas of concern after construction was completed.

I would recommend Classic Golf to anyone interested in building a golf course.

Sincerely,

A handwritten signature in cursive script that reads "Thomas W. Piersol".

Thomas W. Piersol, Managing Partner  
Honeybrook Golf Club, L.P.
